

Unify Your B2B eCommerce Platform

Synchronize eCommerce, ERP, Marketing, and your CMS effortlessly on one platform with Nomad's SaaS solution—tailored specifically for manufacturers and distributors.

Turn Your ERP Platform Into an eCommerce Powerhouse

Seamless ERP Integration

Easily access, transform, and present your data without using 3rd party middleware. Connect to your ERP data and send it where it's needed—to display on your website, use in back-end calculations, or send to another sales channel.

Secure, Flexible, Personalized B2B Checkouts

Generate accurate shipping estimates, customize payment options, and meet the needs of your customers during every step of the checkout process.

Comprehensive Product Configuration & Variation Support

Utilize data from your ERP to simplify product variation and configuration-based orders and cater to the unique needs of your customers.

Product Details: Michigan designs include most helmet decals printed from 38 square inches to 50 square inches (length x width = sq. inches), and are sold per pair consisting of 2 decals, 1 left facing decal and 1 right facing decal, unless letters or text are incorporated within the logo in which 2 decals facing the same direction will be printed. Also available in chrome and matte finishes. Call for pricing.

Note: Artwork files, decal colors, and design information will be submitted during the checkout process. We can take your team's existing decal artwork in AI, EPS, or PDF file art formats or you can provide us with your team's mascot and colors and we'll design a custom helmet decal just for you! There are no additional artwork or setup fees for a custom design.

“

We have a new website that flawlessly integrates with our ERP. Our customers love the new website and platform.

— Aaron Lindholm,
Vice President & CEO, Veloci

“

We're growing every day. The Nomad system is wonderful, and our relationship with their team has been equally as great as the product.
